ATTENTION:

IF YOU ARE ON HOME CONFINEMENT, UNDER THE CARES ACT, YOU NEED TO IMMEDIATELY FILE A CLEMENCY APPLICATION, ALONG WITH A PETITION IN SUPPORT, BECAUSE PRESIDENT BIDEN HAS STATED HIS INTENT TO GRANT CLEMENCY, THUS PREVENTING YOU FROM BEING TAKEN BACK INTO FEDERAL CUSTODY TO SERVE THE REMAINING BALANCE OF YOUR SENTENCE

If you are on home confinement, under the CARES ACT, you need to immediately file a Clemency Petition along with a Petition in Support, because President Biden has stated his intent to grant clemency to those who have been recently released from prison to prevent you from being taken back into federal custody to serve the remaining balance of your sentence. Hence, you need to move quickly to present your case to the Office of the Pardon Attorney before your taken back into custody. Your case does not have to be perfect.

If you have yet to file a Clemency Petition and you desire to have the Biden administration review it, you should act now. What is most important for Clemency purposes is that your petition asserts that your current sentence is "unduly severe" and/or under the current law, you would be eligible for substantially lower sentences were you sentenced today.

If you would like our team of professionals to prepare a professional Clemency Petition for you, please feel to contact us.

What would we need to prepare the petition? We need information, for instance:

- If you started or completed some therapy program, educational coursework, programming, new work assignment, got new certificates, etc. we can submit that to OPA or supplement your pending Petition.
- If you developed a new serious medical condition (or your family members did), we could submit that.
- If you have started volunteering, started mentoring youth, started serving as a deacon or assistant in your church services - positive role model kinds of things -that would be good to know.
- If you just had a birthday or hit an age milestone that would be a good thing to remind them of.
